Professional Summary

Motivated Java Full-Stack Developer with practical experience in developing web applications using Java, Spring Boot, React.js, and MySQL. Proficient in REST API development, backend integration, debugging, and database management. Strong understanding of full-stack development concepts with a passion for building efficient and scalable applications.

Education

Narasaraopet Engineering College
B.tech in Computer Science

Sep 2022 – May 2026
GPA: 8.3/10

Sri Chaithanaya Junior College
M.P.C(A.P Board of Intermediate Education)

Jul 2020 – May 2022
GPA: 9.3/10

Skills

Languages & Frameworks: Java, JavaScript, SpringBoot

Frontend: Html,Css

Backend: Rest APIs

Tools: Git

Databases: MySQL

Internship Experience

Datavally, Full-Stack Java

Nov 2025 – Mar 2026

- Developed responsive full-stack web applications using Java, Spring Boot, React.js, and MySQL.
- Built and tested RESTful APIs for frontend-backend communication.
- Debugged backend services and resolved runtime issues to improve application reliability.
- Collaborated on integrating frontend components with backend APIs.

Projects

IT Helpdesk Ticket Tracking System

Feb 2025 – Mar 2025

- Developed a Java-based IT Helpdesk Ticket Management System to streamline support workflows.
- Implemented ticket creation, assignment, prioritization, and status tracking modules.
- Integrated Spring Security for authentication and role-based access control.
- Built REST APIs and connected backend services with Thymeleaf frontend.
- Technologies: Java, Spring Boot, Spring Security, Hibernate (JPA), MySQL, REST APIs, Thymeleaf.

ExplaiLiver+ — Liver Disease Prediction System

Sep 2025 – Oct 2025

- Developed an ML-based liver disease prediction framework using stacking ensemble techniques.
- Applied SHAP-based explainability for interpretable clinical predictions.
- Achieved 94% accuracy and 98% AUC using XGBoost, LightGBM, CatBoost, and ExtraTress.
- Technologies: Python, Machine Learning, SHAP, XGBoost, Scikit-learn.

Publications (Google Scholar)

- “ExplaiLiver+: A Multi-Stage Stacking Framework with SHAP-Based Interpretability for Clinical Liver Disease Prediction” — IEEE UPWEICON Conference Proceedings, 2025.

Certification

- Java Full-Stack with AI — CSC India under APSCHE
- Python Programming — HackerRank
- JavaScript — Sololearn
